

Informe22

La Tierra y el sistema solar

Material del Profesor
EDUCACIÓN INFANTIL

Adaptación a la TDAH Joaquín Galiana Sanchis

INTRODUCCIÓN:

Este documento tiene cuatro materiales de apoyo para el profesor. Este material servirá como referencia para el trabajo con este alumno.

En primer lugar, nos encontramos con los iconos de objetos y acciones que está utilizando el alumno.

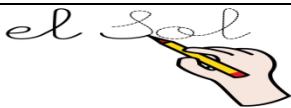

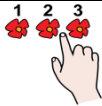

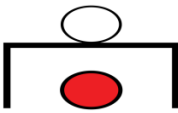

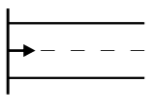

En segundo lugar, tenemos un domino con los iconos y acciones anteriores para utilizarlo con el alumno y sus compañeros.

En tercer lugar, se ha colocado un loto con todas las imágenes anteriores con su correspondencia por escrito que permite cambiar el tipo de letra en todo momento.

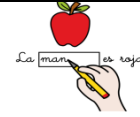

Por último, tenemos un juego de la oca con las imágenes que nos hemos planteado para facilitar el uso por todos los compañeros del alumno.

Hay que reseñar que estos documentos se han realizado con el programa FACIL de Joaquín Fonoll.

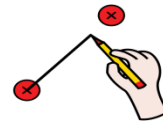

Prof_1. Conoce los iconos de objetos y acciones.
